#### STYLE TIP

Choose from our stunning range of brassware designs to complement your chosen furniture and sanitaryware. Opt for high-shine chrome and nickel finishes, or even a subtle touch of bling.

A must-have for any bathroom, our range of contemporary LED mirrors and cabinets offer a practical illumination to accompany vanity units. Combine with natural wood surfaces and luxurious bathroom lighting for an elegant focal point in the bathroom.

#### STYLE TIP

Mix sleek, reflective surfaces with eye-catching metallic accents to achieve a luxury finish.

#### STYLE TIP

Combined with statement wall tiles a generously proportioned showerhead can help create a showering experience that you won't want to end.

## Get the LUXE LOOK

For the ultimate luxury bathing experience, add a touch of indulgence to bathrooms with premium brassware, furniture and sanitary ware. Combining superior quality materials with the latest manufacturing techniques, your bathroom can be transformed into a glamorous retreat with the latest on-trend taps, striking ceramics and luxurious vanity units. Team with opulent metallic highlights, reflective surfaces and a sultry wallcoverings for a space that exudes contemporary sophistication.

# Get the LATEST LOOK

Looking to update your bathroom style? Keep it teal with a cool blue bathroom scheme that's guaranteed to remain as stylish as it is practical. The latest colour crush, we love how teal creates a cool and calming look in both small and large living spaces. Rethink bathroom interiors by incorporating a combination of layers and textures, and colour block with a soft neutral shade and silver metallics to prevent blues from overpowering homes and appearing cold and uninviting.

## STYLE TIP

Towels are perfect for adding comfort as well as style to bathrooms. For an on-trend look, complement cool blue hues by adding a pop of colour and texture with stylish rose pink towels - guaranteed to give interiors a truly individual style.

## STYLE TIP

Tidy up bathroom essentials with beautiful brass accessories; the angular lines of this hexagonal soap dish create a wonderfully distinctive look.

## STYLE TIP

A stylish bath filler valve with integrated handset brings a touch of on-trend minimalist elegance, perfect for livening up a dark contemporary bathroom.

Beautifully rounded and elegantly illuminated, you can also add colour and personalise your bathroom's lighting scheme with our stylish, energy efficient colour changing LED shower head.

## STYLE TIP

The Kai Lever Mono Basin Mixer takes up minimal space, keeping the basin surface clear for your bathroom essentials. Our taps are also extremely durable and are even water-saving, making them the perfect choice for a busy family bathroom.

Planning a family bathroom can be a daunting process. We understand the time and care it takes to choose the products that are just right for you and your family. Our clever storage solutions and extensive practical product ranges will help you choose the products that will work best for you and allow you to create your dream family bathroom space.

## STYLE TIP

Go large with your vanity unit. A double door cabinet will maximise your storage space and large mirrored cabinets will keep things neatly tidied away.

# Get the FAMILY LOOK

From storage and sanitaryware to brassware and shower solutions, our extensive product range provides you with everything you need to create a highly versatile environment that still embraces the comforts and relaxation of a contemporary bathroom. Offering a diverse selection of products from Simpsons shower solutions, to Bauhaus WCs and durable Crosswater brassware, we guarantee your bathroom will ooze style without having to compromise on functionality.

# WHY VISIT YOUR LOCAL BATHROOM SPECIALIST?

Designing, planning and buying a new bathroom should be a truly enjoyable and ultimately rewarding experience.

At Crosswater we believe that by far the best place to buy your bathroom is at an independent bathroom specialist, why?.....

## 1 EXPERIENCE & EXPERTISE

Specialist bathroom retailers offer a wealth of experience and skill to ensure you receive an impeccable and personal service throughout your bathroom project whatever the size, including help with installation and local tradesman.

## 2 DESIGN CONSULTATIONS

Specialist bathroom retailers can offer knowledgeable assistance with room layout design and technical considerations - most will do this at in the comfort of your own home. Many can provide full 3D design plans so you can visualize your bathroom before its fitted.

## 3 TEST DRIVE SHOWROOM DISPLAY PRODUCTS

Browse, touch and test a huge variety of bathroom products in comfortable surroundings, and receive qualified and fully trained advice on each and every aspect of the products - you simply cannot do this online.

## 4 AFTER SALES CARE

Once you have purchased from a bathroom specialist you can get personal and most importantly local after sales support.

## PRODUCT QUALITY TOTAL PEACE OF MIND

All Crosswater products are designed and produced to the most exacting British and European standards covering performance, durability and safety. To back this up, all Crosswater products carry extensive guarantees, details of which are available at the back of this brochure, online, or by asking your local retailer.

## THERE'S A LOCAL BATHROOM SPECIALIST NEAR YOU

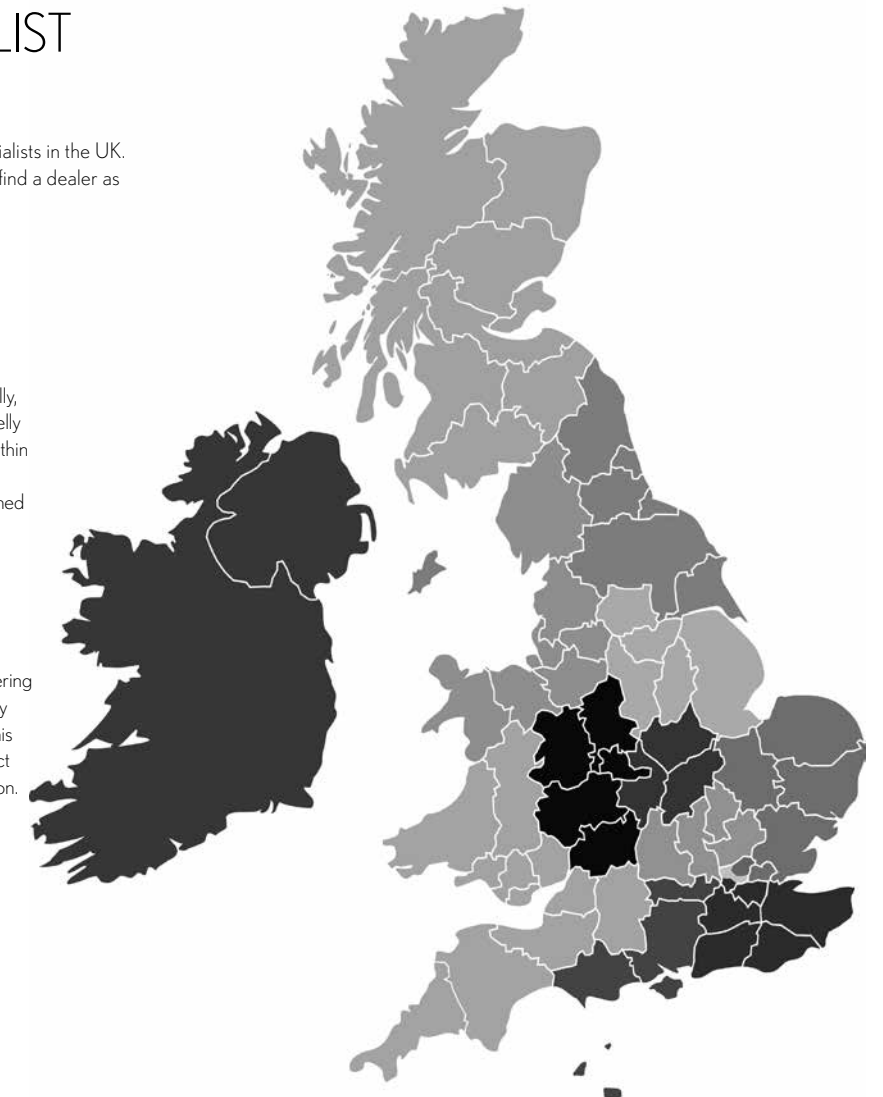

There are almost 600 independent bathroom retail specialists in the UK. The 'Where to Buy' feature on our website allows you to find a dealer as close to home as possible.

These stores present the largest choice of our products locally, including approved dealer status for Digital, Mike Pro and Kelly Hoppen ranges. Some outlets display products and ideas within dedicated "Crosswater Shop-in-Shop areas", some demo products are fully working and you can consult with fully trained sales people on all aspects of your bathroom project.

Specialists in at least one of our brands, with most stores offering a wide range of Crosswater products from within high quality display settings including many of the products featured in this catalogue. Stores have a knowledgeable Crosswater product expert available from initial visit through design and installation.

# BRASSWARE

*An extensive range of unique designs & styles*

# STYLE FINDER

As one of the UK's widest collections of superior brassware for basins, baths and showers, the entire range is an eclectic mix of designs inspired by a mixture of requirements. Styles include fashionable on trend designs, practical details for the family home and for those who have a penchant for a touch of luxe. Renowned for product innovation, Crosswater's brassware features leading technology to ensure you have the best flow level and temperature to suit you. Each range has also been developed to allow you to effortlessly save water in your home.

## SOURCED FROM EUROPE DESIGNED FOR THE UK MARKET

To achieve beautiful quality and unrivalled design without compromising on function, our brassware is created by a pool of internationally renowned product designers, adapted for UK homes then produced in factories across Europe.

## CROSSWATER IT'S ALL ABOUT YOU A SIZE TO MEET YOUR NEEDS

Depending on your style of basin, preferred water flow and type of environment, our taps are designed in various projections and heights to suit your needs.

A: Height (mm) B: Projection\* (mm)

\*The way projection measurements are taken may vary - please check the website for accurate dimensional drawings.

SMALL IN SIZE, BIG IN STYLE

# MINI MIXERS

The widest collection of designs brings you a choice of water flow styles and levers from open spout, waterfall and standard outputs to side, top and column lever controls. While small in size, all mini taps are big on style and performance to add a stunning yet subtle style statement to any washbasin.

## CROSSWATER IT'S ALL ABOUT YOU SOLUTIONS FOR SMALL SPACES

Whatever your personal style is, there's a tap that's perfectly proportioned for any size of washbasin. Sweeping swan neck curves and cubist lever designs, the spectrum of collections are available in varying sizes so you can keep your favourite choice of tap that will perform with the ideal projection for your basin.

## SIZE MATTERS DESIGN EVOLUTION IS DESIGN REFINEMENT

With such a comprehensive choice of basin sizes, it's hard to find the best tap size that not only functions, but looks good too. The mini tap range provides the only solution to complement all basin styles. Correctly sized bathroom proportions can completely transform and unify the space.

At the hallmark of Crosswater Mini unique design, superior performance, durability and eco efficiency prevails, so you can achieve an accomplished finish.

CLASSIC STYLE, CONTEMPORARY FUNCTION

# TRADITIONAL COLLECTIONS

Our Waldorf and Belgravia collections offer the timeless elegance of classically-inspired design, with the added advantages of superior functionality and high-quality materials. Featuring traditional touches such as bevelled edges and elegantly curved spouts, both brassware ranges are available in a choice of chrome crosshead or lever handles, with Waldorf also offering the lever handle in exquisite white and black finishes.

TRADITIONAL DESIGN AT ITS BEST

# WALDORF

Classic in its inspiration, Waldorf is a truly evocative bathroom collection. Combining exquisite craftsmanship with early twentieth-century style, the new Waldorf range has been designed and produced in Europe to represent the ultimate in bathroom luxury. Blending classic rectangular lines with elegant softened edges to evoke a high-quality, striking look, the new range of brassware and sanitaryware is suited to both contemporary and traditional bathroom schemes.

## CROSSWATER'S FIRST COMPLETE BATHROOM COLLECTION

As our first complete bathroom collection, Waldorf offers everything you need to create a unified look. Complementing the brassware is a sophisticated range of Bauhaus ceramics, which present all the signature features of Waldorf in a range of stylish basins, WCs, and our first ever bath design.

Visit the website for the full collection:  
[www.crosswater.co.uk/waldorf](http://www.crosswater.co.uk/waldorf)

## LUXURIOUS SHOWER VALVES

A refined accompaniment to the range of showerheads and handsets, our recessed valves combine the latest in thermostatic technology with Waldorf's classic styling for a luxurious showering experience. Choose from multiple outlet options for a shower that caters to all your bathing needs.

VALVES 38 - 39

CROSSHEAD 22 - 25

WHITE LEVER 26 - 29

BLACK LEVER 30 - 33

CHROME LEVER 34 - 37

## A CHOICE TO SUIT YOU

To ensure there's a look to suit your bathroom, our Waldorf brassware range is available in a refined choice of crosshead or lever handle options. Opt for the distinctive black or white lever handles, which beautifully complement the polished chrome finish, or the coordinating chrome finishes for a unified look.

## STATEMENT EXPOSED VALVES

For a truly classic statement, choose from our range of Waldorf exposed shower valves. With multiple outlet options, choose an option with a handset for a complete showering solution.

EXPOSED VALVES 40 - 45

AN OUTSTANDING BRASSWARE COLLECTION

# BELGRAVIA

Introducing our most extensive classically designed brassware, Belgravia is exceptionally crafted and hand polished across the entire range. For those with discerning tastes and a penchant for the highest quality, this elegant style offers a designer element to traditional bathroom schemes. Displaying ultimate form and function, Belgravia is produced from genuine brass castings with ceramic levers and operates from low water pressure.

## HAND POLISHED FINISHES

Adding a touch of hotel-inspired luxury to bathrooms, the eye-catching chrome surface of our traditional Belgravia collection is meticulously hand polished for a reflective, high-shine finish. A handpicked selection of the designs is also available in a subtle nickel finish, perfect for adding a touch of glamour.

TAPS & MIXERS 48 - 59

## ELEGANT SHOWER VALVES

The classic style of the Belgravia shower valve collection offers a sophisticated smooth finish, perfect for creating a designer element within traditional bathroom schemes. Alongside our advanced thermostatic shower valve, our latest innovative brassware range also consists of an exposed valve collection presenting the option of a single or two outlet valve.

VALVES 60 - 61

## CROSSHEAD OR LEVER OPTIONS

A refined choice for advocates of traditional design, the Belgravia collection is presented with the option of crosshead or lever handles. Drawing inspiration from classic archives, Belgravia offers a wide choice of brassware to suit any bathroom.

## COORDINATING CHROME ACCESSORIES

For the ultimate in luxury interior styling, add an elegant finishing touch to bathrooms and complement your Belgravia brassware with matching accessories.

# BELGRAVIA EXPOSED VALVES CHROME

Complement your Belgravia bath and basin brassware with matching exposed shower valves.

## OUTLET OPTIONS

The traditional style of the Belgravia exposed valve collection offers the option of a single or two outlet valve. Alongside an advanced thermostatic Vernet Cartridge, the clever addition of a second outlet and smooth diverter in the bottom of the valve brings together function and superior style.

## DESIGN TO SUIT YOU SHOWER HEAD OPTIONS

Choose from the standard 8" fixed head, a 12" luxury fixed head or 8" fixed head with rub clean nozzles, each option fits the luxury 35mm diameter rigid rail adding a stylish statement to bathrooms.

Standard - 8" fixed head

Optional - 12" luxury fixed head

Optional - 8" fixed head with rub clean nozzles  
see page 212

## ADDED FLEXIBILITY HANDSET HOLDERS

Enjoy the freedom of a moveable shower head with our three popular handset holder styles. Whether you choose a handset on rigid rail, wall mounted handset or traditional cradle handset holder - each elegant design offers added flexibility in the bathroom.

## EXCEPTIONAL QUALITY

Create the perfect showering experience with a luxury 35mm diameter rail that not only adds superior styling but also improves water flow.

# DESIGNER COLLECTIONS

For those looking to add a touch of high-end appeal to bathrooms, look no further than our designer brassware collections. From the striking curves of the Mike Pro range, to the sculptural forms of the Gallery taps, there's a choice to suit any bathroom style. The range also includes the iconic Kelly Hoppen designs, which showcase a luxurious selection of statement brassware pieces, all encompassing the signature style of the respected interior designer.

CROSSWATER  
IT'S ALL ABOUT YOU  
MULTI-PORT VALVE CONCEPT

Building upon the popularity of the KL4000RC valve, our new multi-port valve offers all the signature functions you're used to but with superior installation flexibility. Boasting individual feeds that can exit left or right, full maintenance can be accessed from the front, including the ability to reverse the hot and cold supplies if required. Alternatively, both left and right feeds can be opened, supplying two outlets working simultaneously. Available in two, three or four-outlet set ups, the easy-to-use controls are mounted on individual square plates, with the thermo control on a larger plate for added convenience when maintenance is required.

CROSSWATER **IT'S ALL ABOUT YOU**  
2500 DIVERTER VALVE

This innovative multi-outlet valve is probably the first concealed model to feature an integrated double check valve (DCV), which is designed to protect water supplies from contamination and back fill. Bath overflow fillers require a double check valve so this clever advancement in valve technology gives the very best in showering and modern bath filling, which also reduces installation costs and time.

This pioneering product operates 3 outlets from a single diverter instead of two. It can operate a bath filler with an overhead shower and handset, or a three-shower outlet such as a wall handset and a dual functioning overhead shower, for an invigorating experience.

A. Water control with diverter for three separate outlets

B. Temperature

# SHOWERING

*A range of innovative showering solutions*

# SHOWERHEADS

If you've a penchant for contemporary design or if you lean to the more traditional styles, there's an array of sophisticated styles, sizes and ideas to inspire you. All designs are intuitively designed to ensure you have a supreme showering experience every time. We understand showering needs vary and you'll find showerhead sizes range from 150mm to 600mm in diameter. From a deluge of water that pours from flawless statement overhead designs to spa styles that refreshingly drench your entire body, create your ultimate showering experience.

## SIZE MATTERS COMPACT OR LARGE

A smaller head diameter enables a more concentrated down pouring spray pattern whereas a wider, larger head provides a gentle showering experience or for a combination of the two, there's a showerhead options to suit your needs. Featuring designs that encompass intelligent water distribution, you can tailor your showering preferences to exactly how you want them with assuring performance capabilities. Whether you favour a powerful and invigorating shower or a moderately refreshing experience, sizes span from 150mm to 600mm in diameter to ensure there's a dimension to individually suit you.

## SHOWER ARMS CEILING OR WALL MOUNTED?

To help you choose which showerhead design to incorporate, consider your style aspirations and the best water flow to create your desired experience. For an authentic overhead shower choose a style that's affixed to the ceiling, or a shoulder showerhead that's elegantly wall mounted.

## A WIDE RANGE OF STYLES MODERN AND TRADITIONAL SHOWERHEAD DESIGNS

The following pages will provide you with the design style, size and effect you dream of minimalist ultra-thin, cool classics and retro modern traditional style. Choose one of our air infusion models for a richer, softer water spray; the thin heads deliver the most even spray imaginable.

FEATURES
Anti-lime scale function
Wipe clean water nozzles for a perfect spray
Choice of brass, stainless steel and ABS construction
Suitable for all water pressure installations
Adjustable angle
Chrome finish face plates
Swivel ball joint
Air infusion technology (Essence and Elegance)
Optional Neoperl® flow regulators to limit shower output to 8 or 6 litres per minute
Option of ceiling and wall arm installation
15 year guarantee

## LED FIXED HEADS GREATER SHOWERING ENJOYMENT

Seek the benefits of chromotherapy that balances energy and achieves spa wellness with the collection of illuminating showerheads, for a revolutionary LED light showering experience. The low consumption LED lamps create a truly magnificent column of water and light with visually stimulating effect.

FEATURES
Recessed ceiling installation
Anti-lime scale function
Double waterfall effect
Up to 13 light settings
Low consumption LED lighting
Wipe clean water nozzles for a perfect spray
Solid brass construction
Optional Neoperl® flow regulators to limit shower output to 8 or 6 litres per minute
Option of ceiling and wall arm installation
15 year guarantee

## MULTIPLE WATER FLOW THE BEST IN LUXURY SHOWERING

Create the ultimate spa like experience, with the luxurious product qualities seen across all fixed heads. For statement style, choose from a selection of innovative wall mounted heads that feature cascades of reviving water flows, gentle rain sprays or even a combination of both.

# SVELTE

Combining sophisticated and innovative style, the new Svelte showerhead embraces luxury bathroom elegance. Featuring multiple water flow channels, including rain, waterfall and refreshing spinning jets, the spa-inspired design offers a sensational showering experience.

<b>Svelte Multifunction</b>

THE NEXT GENERATION OF SHOWERING

# CHROMATHERAPY SHOWER HEADS

Showering with a difference, our innovative range of illuminated showerheads will transform daily bathing routines into the ultimate spa experience. Featuring integrated LED lights, users can choose between green, blue, purple or white colours, or a stunning rotational spectrum to create an in-shower light show that is guaranteed to soothe and relax.

# DYNAMO

Beautifully rounded and elegantly illuminated, the Dynamo shower head depicts the ultimate in luxury showering. Ambient light rays beam from the oversized lustrous dome to create a peaceful environment for you to revitalise and rejuvenate in for the entire duration of your shower. Extraordinarily, Dynamo's LED lighting function is powered by the water that flows through it and therefore does not consume any electricity, as there's no need for it to be connected to the mains.

<b>Dynamo</b>
DYNAMOSHOWER <b>£1299.00</b>

CROSSWATER **IT'S ALL ABOUT YOU**  
4 WAY VALVES

Four-way outlets have been created to be distinctly intuitive to operate with practical considerations. Ergonomically designed, style hasn't been compromised on function with sleek, high quality finishes in portrait and horizontal panel designs with a choice of recessed and wall mounted options.

COMBINING THE ESSENCE OF ALLURING STYLE WITH ERGONOMIC DESIGN

# SHOWER KITS

The high performance shower kits are a simple and effective option for installing a premium showerhead in any shower or bath. Cleverly designed, they also include a versatile riser rail.

## FEATURES

Detachable shower head
Smooth height adjustment
Durable shower hose
Chrome finish rail and hand sets
Handsets work with as little as 0.1 bar water pressure (LP)
15 year guarantee
Dual function handsets on many models
Optional Neoperl® flow regulators to limit shower output to 8 or 6 litres per minute

All of our shower kits can be easily installed with all Crosswater recessed or exposed shower valves.

**IDEAL FOR**  
IDEAL FOR FAMILY BATHROOMS  
WITH MULTIPLE USERS DUE TO THEIR  
FLEXIBLE HEIGHT ADJUSTMENT  
FEATURE AND WATER FLOW OPTIONS

## LUXURIOUS DESIGN PREMIUM SHOWER KITS

An exceptional range of premium shower kits with the option to mix and match components to create your preferred combination of style, pattern and flow. From luxury fixed showerheads to handheld options on rigid risers and wallmounted handsets, Crosswater has a vast selection of versatile designs to suit all needs. A cut above the rest, this desirable collection is available to meet the demands of those with a taste for high quality and luxury.

# ETHOS

Changing the shape of showering pleasure, the Ethos handsets introduce the latest shower control technology at the touch of a button. Forget trying to operate a dial or slider with wet hands, Ethos allows you to simply press a button and comfortably switch between three spray modes invigorate, rain or a combination of the two.

Choose from a modern handset holder with wall outlet (pictured right) or opt for the ultimate in shower riser rails with the Ethos 'easy-sliding' push button design (pictured far right). The controlled height and angle adjustable handset holder is easy for the entire family to use and a great retro fit for any shower makeover.

## EXPOSED VALVES PERFECT FOR SHOWER KITS & OVER A BATH

**The perfect counterpart to Follow Me**  
Blending sleek, contemporary lines with functionality, these deck mounted diverter valves offer a genuinely smart looking solution that diverts water from the bath filler to the shower handset.

CHOOSE THE IDEAL VALVE FOR THE PERFECT SHOWER

# SHOWER VALVES

Crosswater has an unrivalled collection of shower valves to provide you with the ultimate in performance. Choose a highly efficient multi outlet experience or an versatile yet simple, single shower outlet. Whichever your preference, all designs are brilliantly engineered to suit British plumbing systems.

## DIAL VALVES PUSH BUTTON VALVE TECHNOLOGY

Available in both single and double outlet options, Dial is the latest in push button shower technology, which enables you to precisely control the flow of the water as well as the temperature.

PAGES 264 - 291

## MULTIFUNCTION VALVES THE ALL IN ONE COMPLETE SHOWERING EXPERIENCE

Simple to install, multifunction valves offer a fabulous overhead showering experience that incorporates a versatile handset for hair washing or for smaller children to use

Designed with families in mind, our valves feature a built-in safety stop at 40°C with manual override to ensure a safer showering experience at home. The ceramic disc control enables smoother operation and quick transfer from hand set to overhead shower, another function that is perfect for busy family bathrooms.

PAGES 308 - 311

SHOWERING SHOWER VALVES

## RECESSED VALVES FOR A MINIMAL LOOK

With the largest range of horizontal and vertical recessed valves, the collection remains unsurpassed in choice and quality. Using thermostatic valve technology, you can be assured they're safe and easy to operate.

Our recessed valves are ideal for use with fixed showerheads, body jets or shower kits with wall outlet, with a wide choice of head options designed to match your brassware. The stylish chrome brass face plates easily fit over uneven or bumpy tiled surfaces to create an efficient and streamlined look.

PAGES 292 - 305

## EXPOSED THERMOSTATIC VALVES PERFECT ACCOMPANIMENT FOR SHOWER KITS

Featuring precisely controlled water temperature levels and immediate response to changing the water flow, these valves are ideal for the family.

Simple to install, our exposed valves are available in both timeless round or contemporary square designs ensuring there is a stylish option to suit your bathroom.

As well as Cool Touch technology, the fail-safe thermostatic control maintains the selected temperature to within 1.5°C degrees either side, whilst the temperature control also has a built-in safety stop at 40°C.

PAGES 306 - 307

# QUALITY COMES FROM WITHIN

Endurance, quality, economy and safety lay at the core of every Crosswater thermostatic shower valve.

## PRECISION TECHNOLOGY THE PERFORMANCE 'HEART' OF THE VALVE

'Vernet CA43' is the world's leading thermostatic cartridge due to its advanced technology in smooth and precise temperature control.

The thermostatic mixers (single or multiple outlet), will maintain their pre-set water temperature, so whether you switch from one water outlet to another or turn off the water to shampoo your hair, the thermostat will automatically find the exact same pre-set temperature when you re-commence your shower, allowing you to relax and enjoy the ultimate showering experience.

## RELIABILITY NEW FIVE YEAR GUARANTEE

The key element of the valve technology is the ingenious 'thermo-brain' feature. The high quality materials used for this thermo-brain greatly minimise potential of lime scale on settling on working parts, which extends the lifetime and performance of the valve. The lifespan is a minimum 50,000 of cycles, which equates to a family of four showering twice per day for up to 17 years! (Dependent upon water quality and delivery conditions).

By installing a Crosswater thermostatic shower valve you can start to save water and energy from the first day of use. Thanks to the superior shower technology and operation efficiency, a Crosswater thermostatic shower valve will pay for itself over a short period of time.

WE BELIEVE IN THIS TECHNOLOGY SO MUCH, WE HAVE DECIDED TO EXTEND OUR CURRENT THERMOSTATIC CARTRIDGE GUARANTEE TO A **NEW FIVE YEAR GUARANTEE**.

## DURABILITY QUALITY CERAMIC DISC CARTRIDGE

The basis for all high quality shower valves is the performance of the internal turning parts - even after it has been used thousands of times. All Crosswater thermostatic shower valves use Flühs ceramic disc technology inside the Vernet cartridges - the leading innovator, producer and supplier in the world of water supply products. **Each valve is marked with a Flühs symbol as a sign of quality and compliance.**

Silky smooth operation and precise water control are characteristic of Flühs products. All raw materials are highly resistant to acid and alkali solutions in the bathroom (soap, shampoo, etc). The ceramic discs themselves provide the very best operation and are highly reliable, even when you have wet and soapy hands. The strength of the ceramic discs is extremely durable to prevent the usual wear and tear, even after years of prolonged use.

## SAFETY PRECISION IN TEMPERATURE & WATER FLOW CONTROL

Once you have selected your preferred water temperature it will remain unchanging for the duration of your shower, so there's no risk of scalding from a sudden temperature increase and no surprising shocks should the temperature plummet. The Vernet cartridge has precise temperature control and automatic shutdown should a cold water failure occur, and the anti-scald function is individually checked on each cartridge prior to leaving the factory to give you peace of mind.

In accordance with British Standard NHS D08, the Vernet CA43 cartridge provides the best temperature regulation and safety measures possible. The thermostatic mixer valve blends the hot and cold water together and reacts instantly to any changes in the water pressure. For example, when a WC is flushed, the cartridge ensures that the temperature is maintained within 1°C below/above the set temperature.

Vernet cartridges are designed and produced to fully conform to the requirements of TMV2 and 3, thus providing users of all ages with the peace of mind that water flow and temperature are consistently provided.

Geometric in form with a touch of luxe, this modern design is confident in style with a whisper of hotel boutique.

PAGES 288 - 291

INTUITIVE, SMOOTH FUNCTIONALITY

# DIAL VALVES

New from Crosswater, Dial is the latest in push button shower technology which enables you to precisely control the flow of the water as well as the temperature. This innovation not only looks smart with 4 designs, it's smart on the inside using pioneering flow control technology. Available in both single and double outlet options, Dial is a step forward in on/off and water flow control technology with the touch of a button. This allows for total control over your bathing and showering experience.

## SLICK CONTROLS SMART DESIGN & EFFORTLESS PERFORMANCE

Push the top dial once to start/stop water flow

Turn to increase/reduce the water flow

Turn the middle dial to adjust the temperature

Push the bottom dial to start/stop water flow of an additional outlet

## OUTLETS OUTLETS CAN FUNCTION INDIVIDUALLY OR TOGETHER

Your choice of outlet is one of the most important features to fine-tune your showering or bathing experience. The flexibility of Dial allows you to choose from several options, from the simplicity of a single outlet or the versatility of a double outlet.

## QUALITY SMARTER ON THE INSIDE

Simple push button operation, precise temperature control and 11 separate flow positions ensure Dial is designed with families in mind, whilst offering the perfect flexibility between eco friendly showering and a luxurious high pressure power shower.

## BATH FILL OPTIONS SUITABLE FOR BOTH ENVIRONMENTS

The double outlet is perfect for operating a bath filler with a handset or shower. All of which can be used at the same time or independently for a complete solution to your bathing rituals.

FOR A MINIMAL LOOK

# RECESSED VALVES

With the largest range of horizontal and vertical recessed valves, the collection remains unsurpassed choice and quality. Using thermostatic valve technology, you can be assured they're safe and easy to operate.

## RECESSED VALVES FOR A MINIMAL LOOK

Recessed for streamlined appearance
Vertical and horizontal options
Multi control functions
Ceramic disc control for smoother operation
Precise thermostatic control, maintaining selected temperature to within +/- 1.5°C
Only 75mm deep wall recess required
100% solid brass construction and trim set
Chrome brass face plates -that fit over uneven/bumpy tiled surfaces
Fully serviceable from the front
Ideal for use with fixed showerheads, body jets or shower kits with wall outlet
Wide choice of head options designed to match your brassware, see below
Finished with high quality chrome plating
15 year guarantee
WRAS and TMV2 approved

**Inlet adapter for recessed valve**  
AD1500FA1 £39.00

**Recessed valve wall mounting bracket**  
Highly recommended for quick and easy installation  
RV1000WB £20.00 (right)  
Suitable for 1000 / 1500 / 2000 / 2500 / 3000 valves  
RV2001WB £20.00 (left)  
Suitable for 1501 / 1701 / 2001 / 2501 / 3001 valves

## QUALITY MARK OF APPROVAL

A simple way to check you have a genuine Crosswater approved valve is to look for the conformity code that's marked to ensure its compliance with TMV2.

Approved to TMV2

1000RC

1500RC/1600RC

2000RC/2001RC

3000RC/3001RC

1000 THERMOSTATIC VALVE

The best flow and temperature for a single fixed showerhead or shower rail using a wall outlet.

- Water pressure: Single outlet works from 0.2 bar upwards
- Temperature and water flow controlled independently
- Suitable for all hot water systems, including gravity fed (0.2 bar minimum) and high pressure (5.0 bar maximum)
- Temperature control mechanism has a temperature limit stop which can be preset at any temperature
- Temperature handle has a built-in safety stop at 42°C with an automatic safety shutdown should the hot or cold water supply fail
- Ceramic disc control for smooth action and no drips
- 100% solid brass construction and trim set
- Fully serviceable from the front
- WRAS Approved to TMV2
- Wide choice of head options designed to match your brassware
- Panel dimension w 120 x h 215mm

1600 THERMOSTATIC VALVE

This modern, multifunctional design allows you to switch effortlessly from bath filling to overhead or wall mounted shower.

- Bath spout with integrated diverter for overhead or wall mounted shower
- Water pressure: HP1, 1 bar
- Panel dimension w 120 x h 275mm
- Ceramic disc control for smooth action and no drips
- 100% solid brass construction and trim set
- Fully serviceable from the front
- WRAS Approved to TMV2
- Wide choice of head options designed to match your brassware

1500/1501 THERMOSTATIC VALVE

The market's favoured two outlet valves. Ideal for a fixed head and shower rail, or shower head and bath filler.

- Two outlet valve with diverter to switch between two different shower or bath functions
- Water pressure: HP1, 1 bar
- Portrait (1500 - shown right) and landscape (1501 - shown below) options
- Ceramic disc control for smooth action and no drips
- 100% solid brass construction and trim set
- Only 75mm wall depth required
- WRAS Approved to TMV2
- Fully serviceable from the front
- Wide choice of head options designed to match your brassware
- Panel dimension w 120 x h 215mm / w 215 x h 120mm

1701 THERMOSTATIC VALVE

Our new and luxurious fully integrated two outlet valves can be smartly operated for bath filling with a handset, or double showering with an overhead shower and handset.

- Two outlet valve with diverter to switch between bath and shower or two shower outlets
- Landscape only
- Water pressure: HP1, 1 bar
- Ceramic disc control for smooth action and no drips
- 100% solid brass construction and trim set
- Fully serviceable from the front
- Choice of styles
- Panel dimension w 275 x h 120mm

2000/2001 THERMOSTATIC VALVE

This classic valve features three flow controls and allows you to use two outlets separately or at the same time. Operate a bath with shower, or with two shower outlets.

Perfect for Glide and Revive overhead showers

Two outlet valve with diverter to switch between two different shower or bath functions
Water pressure: Works from 0.5 bar upwards
Portrait (2000 - shown right) and landscape (2001 - shown below) options
Ceramic disc control for smooth action and no drips
100% solid brass construction and trim set
Fully serviceable from the front
Only 75mm wall depth required
WRAS Approved to TMV2
Wide choice of head options designed to match your brassware
Panel dimension w 120 x h 275mm / w 275 x h 120mm

- 
- A. Water flow to single outlet
  - B. Temperature
  - C. Water flow to single outlet (separate or simultaneous use)

2500 THERMOSTATIC VALVE

Probably the first concealed multi-outlet valve to feature an integral double check valve, negating the need to fit a separate DCV in the plumbing system – saving fitting time and cost. This innovative advancement in valve technology makes the 2500 model the very best valve to install with a bath overflow filler that requires a DCV, with overhead and hand shower fixtures.

Perfect for Glide and Revive overhead showers

Three outlet valve with single diverter to switch between three different shower or bath functions
Water pressure: HP1, 1 bar
Portrait only
Ceramic disc control for smooth action and no drips
100% solid brass construction and trim set
Fully serviceable from the front
WRAS Approved to TMV2
Available for Kai Lever, Svelte, Watersquare and Central
Panel dimension w 120 x h 215mm

- 
- A. Water control with diverter for three separate outlets
  - B. Temperature

2701 THERMOSTATIC VALVE

The classic shower valve now with integrated shower handset and holder. Allows you to use two outlets separately or at the same time. Operate a bath with a shower or with two shower outlets .

Two outlet valve with individual flow control for bath and shower or two shower outlets
Landscape only
Water pressure 0.5 bar upwards
Ceramic disc control for smooth action and no drips
100% solid brass construction & trim set
Integrated shower handset
Fully serviceable from the front
Choice of styles
Panel dimension w 342mm x h 66mm

- 
- A. Water flow to single outlet
  - B. Temperature
  - C. Water flow to single outlet (separate or simultaneous use)

3701 THERMOSTATIC VALVE

Our high performance two control valve with three-way diverter, now including an integrated shower handset and holder. It runs a single shower or bath outlet or for premium showering switch to run two outlets at once. The perfect option for a bath, overhead shower and integrated handset or a luxurious shower set up.

Three outlet valve with diverter to switch between 2 different outlets or different shower or bath functions.
Landscape only
Water pressure HP1, 1bar upwards
Ceramic disc control for smooth action and no drips
100% solid brass construction & trim set
Integrated shower handset
Fully serviceable from the front
Choice of styles
Panel dimension w 342mm x h 66mm

- 
- A. Water control with diverter for two separate outlets
  - B. Temperature
  - C. Water flow to single outlet (separate or simultaneous use)

3000/3001 THERMOSTATIC VALVE

A high performance two control valve with a three-way diverter. It runs a single shower or bath outlet or for premium showering, switch to run two outlets at once. The perfect option for a bath with overhead shower and handset or a luxurious dual shower set up.

Perfect for Glide and Revive overhead showers

Three outlet valve with diverter to switch between 2 separate outlets or different shower or bath functions
Water pressure: HP1, 1 bar
Portrait (3000 - shown right) and landscape (3001 - shown below) options
Ceramic disc control for smooth action and no drips
100% solid brass construction and trim set
Fully serviceable from the front
WRAS Approved to TMV2
Wide choice of head options designed to match your brassware
Panel dimension w 120 x h 275mm / w 275 x h 120mm

4000/4001 THERMOSTATIC VALVE

An elite and innovative design that's ideal for superior duo showering installations, run four outlets at once from the same valve. Use for two overhead showers and two handsets, or a two outlet showerhead, such as Revive, and body jets.

Perfect for Glide and Revive overhead showers

Four independent flow controls with a single temperature control
Water pressure: HP3, 3 bar
Portrait (4000 - shown right) and landscape (4001 - shown below) options
Ceramic disc control for smooth action and no drips
100% solid brass construction and trim set
Fully serviceable from the front
Wide choice of head options designed to match your brassware
Only available for Kai Lever and Central ranges
Panel dimension w 170 x h 480 mm / w 480 x h 170mm

10 MINI THERMOSTATIC VALVE

One of the smallest thermostatic valves presented, its neat and discreet design continues to deliver prestigious showering performance. 10 Mini has been designed to work smoothly with a single overhead shower or a shower kit with a wall outlet.

Independent temperature and flow control
Water pressure: HP1, 1 bar
Ceramic disc control for smooth action and no drips
100% solid brass construction
Fully serviceable from the front
Only 45mm wall depth required
Wide choice of head options designed to match your brassware

0004 MANUAL VALVE (NON-THERMOSTATIC)

The most economical way to introduce a shower outlet over a bath, the 0004 manual valve is extremely versatile and simple to install with an overhead shower or shower kit.

Non-thermostatic
Simple lever operation for flow and temperature
Water pressure: HP1, 1 bar
Ceramic disc control for smooth action and no drips
100% solid brass construction and trim set
Fully serviceable from the front

0005 MANUAL VALVE WITH DIVERTER (NON-THERMOSTATIC)

The ideal solution for those updating their shower and bath on a budget, this sleek valve with a high performance diverter doesn't compromise on style or function. Operate a bath with shower or a showering area with two outlets.

Simple lever operation for flow and temperature
Water pressure: HP1, 1 bar
Ceramic disc control for smooth action and no drips
100% solid brass construction and trim set
Fully serviceable from the front

CROSSWATER  
IT'S ALL ABOUT YOU  
INNOVATIVE  
DIAL VALVES

The latest in push-button technology, Dial is available across Belgravia, Kai Lever, Central and Pier collections ; offering classic good looks alongside state-of-the-art technology. Allowing you to precisely control the flow of water and temperature simultaneously, Dial presents cutting-edge on/off operation at the touch of a button, in a choice of single and double outlets.

See page 264-291 for more information

RECESSED VALVES

CROSSWATER  
IT'S ALL ABOUT YOU  
MULTI-PORT VALVE CONCEPT

Building upon the popularity of the KL4000RC valve, our new multi-port valve offers all the signature functions you're used to but with superior installation flexibility. Boasting individual feeds that can exit left or right, full maintenance can be accessed from the front, including the ability to reverse the hot and cold supplies if required. Alternatively, both left and right feeds can be opened, supplying two outlets working simultaneously. Available in two, three or four-outlet set ups, the easy-to-use controls are mounted on individual square plates, with the thermo control on a larger plate for added convenience when maintenance is required.

## FEATURES

**Perfect for use with any Crosswater shower kit**

- Solid brass construction
- ¾" outlet and inlet
- Suitable for all hot water supply systems from 0.5 bar pressure
- Separate flow and temperature controls
- Facility to set your preferred temperature and leave for the next time you use the valve
- Ceramic disc control for smooth turning action and no drips

- Temperature handle has a built-in safety stop at 38°C with manual override button
- Complete with wall unions for installation
- 15 year guarantee
- Optional Neoperl® flow regulators to limit shower output to 8 or 6 litres per minute
- Multifunctional valves can be quickly and easily installed with all water-running elements mounted on the wall exterior to free up valuable basin top space and allow the valves to be maintained or upgraded with ease.

**Exposed valve wall mounting bracket**  
Highly recommended for quick and easy installation  
EV1205WB **£30.00**

**Exposed Thermostatic Shower Unions with integrated shutoff**  
RM-SHUTOFF **£15.00**

# MULTIFUNCTION VALVES

The all-in-one complete showering experience, multifunctional valves offer a host of fabulously advanced design features and incorporate a versatile handset, overhead shower and valve in one single product. With magnificent styling, an unbeatable directional showering performance, thermostatic control and excellent eco benefits, our superior range is not only smart and modish but also incredibly easy to use.

## FEATURES

Fail-safe thermostatic control, maintaining selected temperature to within +/- 1.5°C
Water pressure: 1bar minimum
Integral shower head and handsets
Smooth height adjustable directional hand sets
Ceramic disc control for smoother operation
Quick transfer of water from hand set to overhead shower
Automatic safety shutdown should the hot or cold water supply fail
Flow control with integral diverter
Temperature control has a built-in safety stop at 38°C with manual override for a safer shower
Water Save button reduces water consumption, with manual override
Simple to install
15 year guarantee
Optional Neoperl® flow regulators to limit shower output to 8 or 6 litres per minute

### Shower head features

Ball joint adjustable angle fixed head
Smooth slide up and down hand set
Intelligent water distribution
Full height handset adjustment
1500mm hose
Grey or chrome faced head
Wipe clean nozzles

Features shown above are generic and may not apply to all Crosswater Multifunction Valves, please check product details for specific information.

## CROSSWATER IT'S ALL ABOUT YOU ECO & INSTALL FRIENDLY

Speeding up the process of getting water to your desired temperature quickly means lower energy consumption, reduced heating bills and carbon dioxide emissions. Reducing water usage is important to us all so the innovative water delivery of our valves means you get maximum performance with less water. Multi-function valves are quickly and easily installed. All water-carrying elements are installed on front of a wall; they so they can be can be simply maintained or upgraded at any time without the need to get inside walls.

**Exposed valve wall mounting bracket**

## THE IMPORTANCE OF UNDERSTANDING YOUR WATER SYSTEM

# WATER PRESSURE

## SELECTING THE RIGHT PRODUCTS

In order to select a showering system that will give optimum performance you need to identify the water pressure of the plumbing system in your home.

## WHAT IS WATER PRESSURE?

Water pressure is a term used to describe the flow strength of water through a pipe; it is measured in bar.

## IDENTIFYING YOUR WATER PRESSURE RATING

By identifying your home's plumbing system you can select a product that best suits your water pressure.

## WHY IS THIS IMPORTANT?

Whilst the majority of Crosswater products are compatible with most systems, some high pressure (HP) products are designed to work with high pressure systems only. Products marked LP (low pressure) and MP (medium pressure) are also suitable for high pressure (HP) systems.

LP	minimum 0.2 bar
MP	minimum 0.5 bar
HP1	minimum 1 bar
HP2	minimum 2 bar
HP3	minimum 3 bar
HP4	minimum 4 bar

All products marked LP (Low pressure) and MP (Medium pressure) are also suitable for HP (High pressure) systems.

## WATER SAVING

We are all under pressure to save water in order to help the environment and reduce climate change. Part G of the governments' building regulations now requires all new domestic buildings to meet a maximum water consumption of 125 litres per person each day.

You can help to reduce the water consumption of your household by easily inserting a flow regulator into your basin tap or shower hose. This will allow you to control the amount of water your taps use.

**5 lpm basin tap flow regulator**  
designed for taps with screw in circular aerator housing  
35.6184.0 £6.00

**3.5 lpm basin tap flow regulator**  
designed for taps with screw in circular aerator housing  
35.6182.0 £6.00

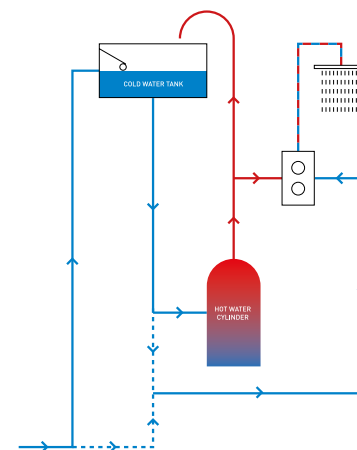

**8 lpm shower flow regulator**  
designed for hand showers or fixed heads operating min 1 bar  
58.8638.1 £3.00

**6 lpm shower flow regulator**  
designed for hand showers or fixed heads operating min 1 bar  
58.8636.1 £3.00

**Basin aerator 5.7lpm**  
40.8356.01002 £4.00

NEOPERL®

## HOT GRAVITY & COLD GRAVITY/MAINS

### Low pressure systems (LP min 0.2 bar)

- ✓ You have a cold water storage tank in the loft.
- ✓ You have a hot water cylinder.
- ✓ You do not have a shower pump installed.

If all of the above apply to your home you can choose any product marked with LP (min 0.2 bar).

**Note** A gravity fed system provides MP (0.5 bar) to fittings downstairs in a 2 story property where the cold water tank is in the loft.

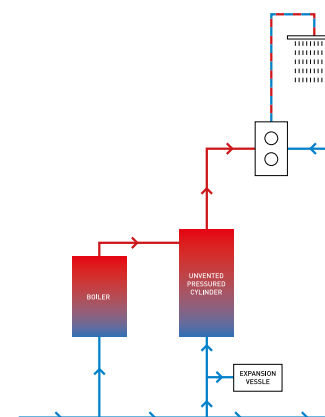

## COMBINATION BOILER

### Medium pressure systems (MP 0.5-1 bar)

- ✓ You have a combination boiler that heats water on demand.
- ✓ You do not have any storage tanks.
- ✓ You do not have a shower pump installed.

If all of the above apply to your home you can choose any product marked with LP, MP or HP1.

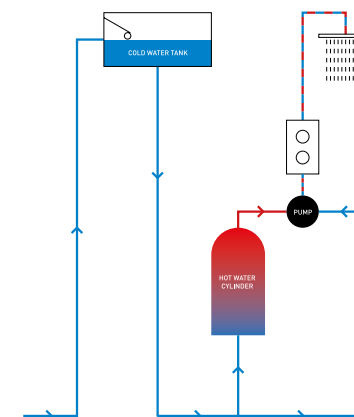

## MAINS HIGH PRESSURE

### High pressure systems (HP1/2/3 2-3 bar)

- ✓ You have an unvented cylinder with an expansion cylinder.
- ✓ You have no cold water tank in the loft.

If either of the above apply to your home you can choose any product marked LP, MP, HP1, HP2 and HP3 (minimum 1/2/3 bar).

## PUMP ASSISTED

### High pressure systems (MP to HP4)

- ✓ You have a booster pump fitted.

Where a gravity flow of water is in excess of 0.6lpm, this is known as a 'Positive Head' condition (e.g. when your shower head is positioned lower than your cold water storage tank). In this situation, a positive shower pump can be used. A 'Negative Head' condition is when the gravity flow of water is less than 0.6lpm (e.g. when your shower head is positioned above the cold water tank level). In these conditions, a negative head pump must be used.

Negative shower pumps will work in both positive and negative head conditions. So for example, in a situation where there is a shower head above and below the water tank level; one negative shower pump can be used for both.

With the right pump, you can choose any of our products.

# WHY VISIT YOUR LOCAL BATHROOM SPECIALIST?

Designing, planning and buying a new bathroom should be a truly enjoyable and ultimately rewarding experience.

At Crosswater we believe that by far the best place to buy your bathroom is at an independent bathroom specialist, why?.....

## 1 EXPERIENCE & EXPERTISE

Specialist bathroom retailers can offer knowledgeable assistance with room layout design and technical considerations - most will do this at in the comfort of your own home. Many can provide full 3D design plans so you can visualize your bathroom before its fitted.

## 3 TEST DRIVE SHOWROOM DISPLAY PRODUCTS

Browse, touch and test a huge variety of bathroom products in comfortable surroundings, and receive qualified and fully trained advice on each and every aspect of the products - you simply cannot do this online.

## 4 AFTER SALES CARE

Once you have purchased from a bathroom specialist you can get personal and most importantly local after sales support.

## PRODUCT QUALITY TOTAL PEACE OF MIND

All Crosswater products are designed and produced to the most exacting British and European standards covering performance, durability and safety. To back this up, all Crosswater products carry extensive guarantees, details of which are available at the back of this brochure, online, or by asking your local retailer.

## THERE'S A LOCAL BATHROOM SPECIALIST NEAR YOU

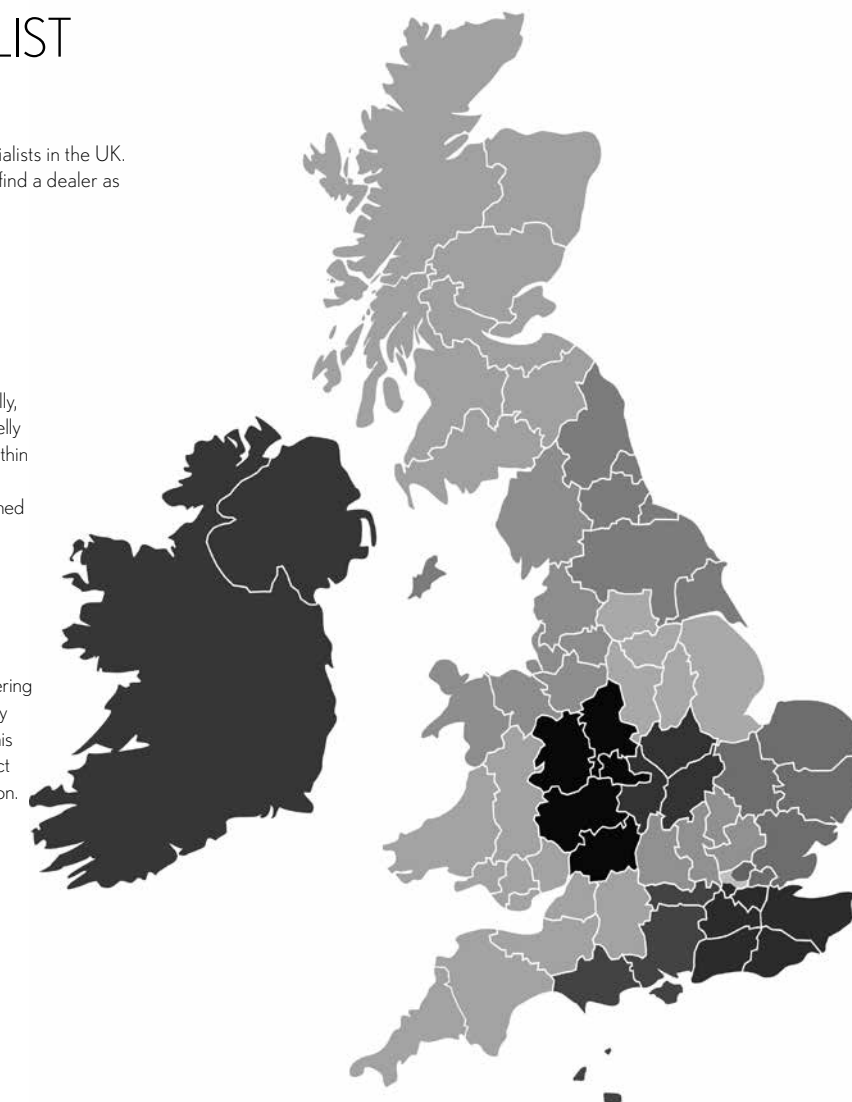

There are almost 600 independent bathroom retail specialists in the UK. The 'Where to Buy' feature on our website allows you to find a dealer as close to home as possible.

These stores present the largest choice of our products locally, including approved dealer status for Digital, Mike Pro and Kelly Hoppen ranges. Some outlets display products and ideas within dedicated "Crosswater Shop-in-Shop areas", some demo products are fully working and you can consult with fully trained sales people on all aspects of your bathroom project.

Specialists in at least one of our brands, with most stores offering a wide range of Crosswater products from within high quality display settings including many of the products featured in this catalogue. Stores have a knowledgeable Crosswater product expert available from initial visit through design and installation.

STYLE FINDER

With one of the UK’s widest collections of superior brassware for basins, baths and showers, the entire range is an eclectic mix of styles suitable for a multitude of requirements. Styles include fashionable on trend designs to practical details for the family home and there’s a range of premium finishes for those who have a penchant for a touch of luxe. Renowned for product innovation, Crosswater’s brassware also features leading technology to ensure you have the best flow level and temperature to suit you.

# TERMS & CONDITIONS

PRICES

This price list supersedes all previous publications with goods being invoiced at prices ruling on date of despatch. Prices are subject to alteration without notice and include VAT.

DELIVERY

Orders in excess of £50.00 nett invoice value will not be subject to carriage charge and will be delivered within two working days from receipt of order. Orders below £50.00 will be subject to a fixed charge of £5.00.

We will endeavour to deliver all orders on time and in full however we shall be under no liability for any delay or failure to deliver products. Any claim for non-delivery must be reported to the company within 14 working days from the date of delivery, such claims will not be accepted for deliveries to a third party delivery address.

RETURNED GOODS

Requests to return goods must be made in writing to Returns.Department@crosswater.co.uk and include the product details, purchase order, order number and reason for return. All requests must be received within 21 days of the delivery date, must be in perfect condition and in the original packaging all will be subject to 12.5% re stocking charge. Requests to collect from a residential premises will be subject to a £30 fixed charge. Special orders are non-returnable.

RETENTION OF TITLE

Ownership of goods shall remain in the Company until full payment has been received for all goods comprised in this contract. If any goods are re-sold before payment is made the Company's right of ownership shall be transferred to the proceeds of sale or to the claim for such proceeds.

LIABILITY

All quotations are given and goods sold subject to the conditions that the seller's liability is limited to goods proved to have been defective in material or workmanship when they left the sellers works. No claim will be accepted where goods have not been used for the purpose for which they were intended, not fitted correctly, not maintained to the seller's recommended standards or have been abused or misused.

ERRORS & OMISSIONS

In the interest of continuing design and development and product improvement, Crosswater reserve the right to change colour, designs and product specifications without prior notice.

CLEANING & MAINTENANCE

All Crosswater products should be cleaned with warm soapy water only and polished with a clean, soft, dry cloth.

When installing wall mounted products Crosswater strongly recommend making provisions for an in-wall access point, particularly when tiling, for maintenance purposes.

15 YEAR GUARANTEE\*

All Crosswater products, unless otherwise stated, carry a 15 year guarantee which covers all manufacturing defects. This guarantee does not cover damage during fitting, misuse or inappropriate cleaning or consumable goods. Care should be taken in hard-water areas to ensure the cartridge is regularly cleaned.

\*With the exception of cartridges which carry a 5 year guarantee, and hoses, "o" rings, diverters and shower hoses which are all guaranteed for 1 year.

PRODUCT COMPATIBILITY

Whilst the majority of Crosswater products are compatible, care should be taken on product selection prior to ordering to avoid installation issues. Technical drawings are available on our website or on request.

WATER PRESSURE (RECOMMENDATIONS)

LP	minimum 0.2 bar
MP	minimum 0.5 bar
HP1	minimum 1 bar
HP2	minimum 2 bar
HP3	minimum 3 bar
HP4	minimum 4 bar

All products marked LP (Low pressure) and MP (Medium pressure) are also suitable for HP (High pressure) systems.

**2D** Thermostatic shower valve that offers two independent functions from a single valve.

**3D** Thermostatic shower valve that offers three independent functions from a single valve.

**4D** Thermostatic shower valve that offers four independent flow controls from a single valve.
