In Veldeau

New colours

## Muted Green

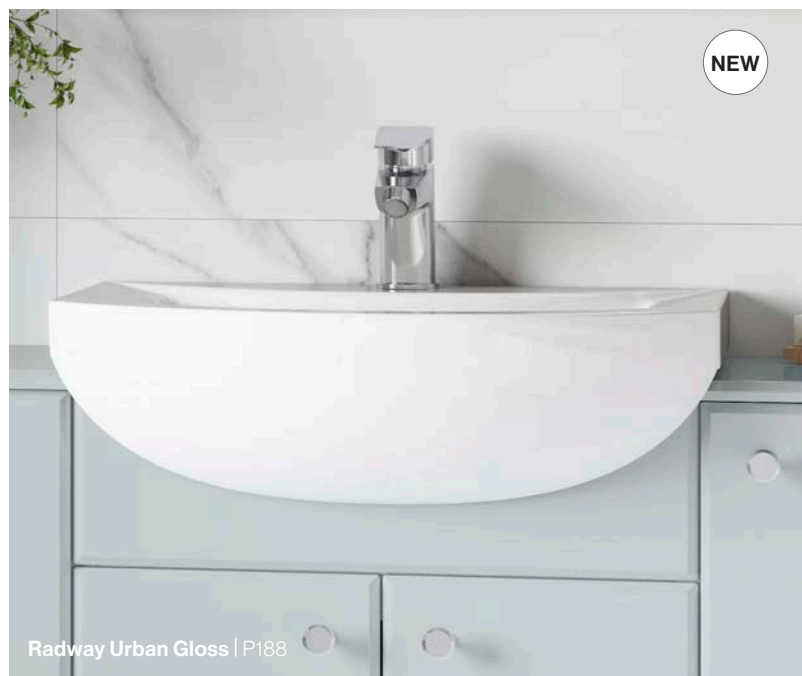

Elevate your space with our newest finish - Muted Green. This calming shade brings a touch of nature indoors, pairing effortlessly with both modern and classic interiors. Whether you're updating a cloakroom or redesigning a master ensuite, Muted Green offers a fresh yet refined palette. Find Muted Green in Bourton on **page 42**, Elmore on **page 72**, and Winson on **page 100**.

## More Colours, More Possibilities

We've expanded our colour palette and included some of our most popular colours across even more of our fitted furniture range, giving you more freedom to personalise your space. From soft, muted tones to bold, modern finishes, there's a shade to suit every style and every bathroom.

New Basin

## Ceramic Winster Basin for Radway

Elegant in both form and size, the new Winster basin is our first ceramic design in the Radway range. Its bold, rounded shape creates a striking focal point, offering the perfect balance of style and function. Discover the Winster basin in Radway on **page 188**.

## New Byford & Henbury

Our two most popular vanity ranges are now available in three additional sizes, offering even more flexibility for your bathroom redesign. Whether you're reimagining an ensuite, seeking clever storage solutions, or refreshing a compact space, these new options make it easier to find the perfect fit, without compromising on style.

The new Asymmetrical Vanity Unit is designed to accommodate bathroom essentials of all shapes and sizes, while the new Two Door Floorstanding Unit blends practical storage with everyday functionality. Thoughtfully designed for compact spaces, the new Wall Hung Mini Vanity Unit offers style and practicality in a smaller footprint, it's the perfect solution for cloakrooms or smaller bathrooms. Discover the new additions in Byford on **page 118**, and Henbury on **page 146**.

White Flint - Veldstone

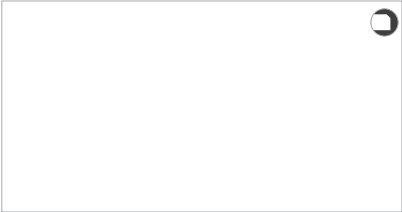

# Worktops Solid Surface Worktops - Veldstone

Veldstone worktops are made from a mixed compound of natural minerals and acrylic resins. The material is completely non-porous and the smooth surface is resistant to most domestic chemicals. It can be cut and shaped using standard woodworking tools, the cut edge can then be sanded and polished to a perfect finish by hand. Finished with a Chamfered Edge.

## Notes

It is important when ordering and booking installations that sufficient time is allowed between product delivery date and installation date for the checking of goods and, if required, the re-delivery of any rejected or damaged items.

Over 90% of the products shown in this brochure are held in stock and are dispatched within 48 hours of ordering, (up to 72 hours for parts of Scotland and more remote parts of the UK). Please check expected delivery dates at the time of ordering for any time-critical items.

Printed colours and wood grains are subject to print and screen variations and are for illustration purposes only. Please visit our website [www.veldeau.co.uk](http://www.veldeau.co.uk) or call our sales office on **01432 367 367** to request a sample for exact colour matching prior to ordering.

Prices in this catalogue include VAT at 20%.

## Product Notes & Specifications

Please note that some of the images within the brochure are CAD generated and may not reflect the detail of product exactly. We strongly recommend that any questions relating to detail of any of our products are asked prior to ordering.

All carcasses are made from 18mm furniture grade MFC and supplied ready assembled. They come complete with hinges, wall hanging brackets and other necessary fittings. Door and fascia panels are packed separately for fitting once the carcasses are installed to help avoid damage. Doors are pre-drilled for hinges. Unit dimensions given are overall including fascias.

All plinths, fitter or decor panels and handles must be ordered separately unless otherwise stated.

All Veldeau bathroom furniture fascia panels have a furniture grade MDF core. Any exposure of the MDF core through cutting must be sealed with a proprietary sealant such as PVA or silicone to maintain the warranty.

Slimline basin units in bathrooms will require reduced-depth semi recessed basins. Veldeau units are designed at a height to allow good access underneath the carcasses to run any pipework required.

Due to space restrictions on slimline units, the rear legs should be removed to run a soil pipe through, and rigidity is maintained by the front legs and wall fixing.

All our concealed WC cisterns are suitable for front access servicing. If other manufacturer's concealed cisterns are

used, service accessibility should be checked.

All Veldeau cast basins are made from a mineral powder/polyester resin. The surface is protected by gel coat which is at least 0.5mm in thickness. Clean and care for your top with a normal liquid detergent (do not use detergents containing abrasives) and buff with a good quality polish to keep your cast top in tip-top condition.

Postformed Laminate Worktops have a 22mm chipboard core and are supplied with a length of matching edging for re-sealing when cut.

Bath side and end panels are supplied in 2 parts to give height adjustment so they can be suited to any standard bath.

## Taking Care of Your Veldeau Products

By following some simple care and cleaning guidelines, Veldeau products can be expected to give many years of enjoyable and trouble-free service.

Veldeau Bathrooms are designed to be used within domestic environments. As with all timber based products, ventilation is key, and your bathroom furniture will be adversely affected if subject to excessive moisture on the surface or in the atmosphere. It is strongly recommended that a suitable bathroom extractor fan is installed to prevent condensation building up and to prevent damage to the furniture.

Veldeau Bathrooms timber based fitted furniture must never be installed in a wet-room situation.

It is most important that any cut or exposed panel edge, and any floor or wall abutment with furniture or sanitaryware must be sealed with a waterproof sealant such as silicone to avoid the possibility of water ingress and damage.

All water spills and sprays must be wiped clean and mopped dry immediately to prevent water marks or other damage.

Never use chemical or abrasive cleaners, bleach or furniture polishes on any bathroom furniture as the finish can be affected. Clean only with a soft damp cloth and a mild soap solution as necessary.

CERAMIC SANITARYWARE - Clean with a damp cloth and warm soapy water. Rinse with clean water and polish with a soft cloth. Avoid using cleaners that contain abrasive solvents, acid or ammonia.

BRASSWARE - Clean with a damp cloth, rinse clean and polish with a dry cloth. Avoid using cleaners that contain abrasive solvents, acid or ammonia.

DIMENSIONAL TOLERANCE - Due to the nature of materials and production processes, dimensions may vary within a tolerance of  $\pm 2$ mm on furniture,  $\pm 3$ mm on cast basins and  $\pm 5$ mm on ceramic.
